Have a room full of LEGO	A room full of stuffed animals
Be a pirate	A ninja

Morning meeting · Brain breaks · Opinion writing

crowdsided

Three ways to play

1. **Walk to a side.** Project a slide. Side A of the room is coral, side B is teal. Students walk to their pick, then one from each side explains why.
2. **Thumbs or fingers.** No moving around: one finger for A, two for B. Count and compare.
3. **Live class vote on devices.** Open crowdsided.com/classroom on your computer, pick a question set, and students join at crowdsided.com/join with a code. You reveal how your class split next to the rest of the world.

Live classroom rooms are free. No accounts, no student names or emails. Votes stay in your room and the room is deleted after 4 hours. Details for your principal or IT: crowdsided.com/schools

Each question slide has its own QR code: scan it to vote and see the worldwide result.
